townclerk@roxburyny.com

REVISED 3/2/15

IMPORTANT INFORMATION BEFORE APPLYING FOR A PERMIT

Site Plan Review - new commercial construction does require application and review by the Planning Board and expansion to an existing commercial building may require application and review by the Planning Board. A copy of the law is available for inspection at the Town Clerk's Office. Planning Board approval must be received before applying for a Building Permit. The Planning Board meets the third Wednesdays of the month at 7:30 pm at the Town Hall. If needed, applications are available at the Town Clerk's Office. Messages can be left at 607-326-7641 or email to roxburypb@outlook.com

Historic District - if the property is in the hamlet of Roxbury Historic District (map attached) and work being done is on the outside of the building, an application must be submitted to the Roxbury Historic Preservation Commission (RHPC) for review. RHPC approval or a decision from RHPC stating the work does not come under their review must be received before a building permit can be issued. Beginning April 2015, the RHPC will meet quarterly on the third Saturday at 10:00 am at the Town Hall. Messages can be left at 607-326-3722 or email to roxburyoffice@gmail.com.

1. This application must be completed in pen (printed clearly) or typewritten.
2. All applicants whose building activity will take place in a flood hazard area must complete Part II, which can be obtained at the Town Clerk's Office.
3. All applicants submitting for a NEW HOME must include paperwork from NYC DEP approving the plans for septic installation. If applying for an ADDITION that will include a bedroom(s), written approval from NYCDEP must be included approving use of the existing system. (DEP 607-363-7000) A NYCDEP information page is attached to this application. A Building Permit cannot be issued until notification has been received from NYCDEP approving the septic system.
4. New home applications on Town roads require Town Highway Supt. approval of driveways entering a Town Road (607-326-4222). Driveways entering a County Road require Delaware County Dept. of Public Works approval (607-746-2128). Driveways entering a State Road require NYS Dept. of Transportation approval (607-746-2268).
5. All applicants constructing buildings that apply to Impervious Surfaces Limiting Distances (within 100 ft of a stream) must complete a DEP Application of Review.
6. All applicants must include the applicable forms regarding proof of Worker's Compensation for any construction to be done. 1) If homeowner is doing all of his own work, you must include Form BP-1 Affidavit of Exemption (form is attached to this application and must be notarized). 2) If owner contracts for work to be done, you must include copies of a Certificate of Insurance for General Liability Insurance AND either copies of Worker's Comp coverage OR ** Form CE-200 Certificate of Attestation of Exemption. Instructions for CE-200 are #7 below. A Building Permit cannot be issued without these forms being submitted.
7. As of December 1, 2008 Form CE-200 can be filled out electronically on the NYS Workers Compensation Board's website, www.wcb.state.ny.us under the heading "Forms". Applicants filing electronically are able to

print a finished Form CE-200 immediately upon completion of the electronic application. Applicants without access to a computer may obtain a paper application for the CE-200 by writing or visiting the Customer Service Center at any District Office of the Worker's Compensation Board. Applicants using the manual process may wait up to four weeks before receiving a CE-200. Once the applicant received the CE-200 the applicant can then submit that CE-200 to the government agency from which he/she is getting the permit, license or contract.

8. Structures requiring architect approved and stamped plans: (A) Any stick built residential construction of living quarters more than 1500 SF in size, including a daylight basement area (B) All commercial buildings (C) Any addition or alteration/major repair costing \$20,000 or more. Costs shall include total cost of work from start to completion. *NOTE:* Any new building addition or alteration/major repair, of any size or cost, may, at the discretion of the Building Inspector, require plans to be approved and stamped by an architect.

9. Plans to be submitted with the application: (a) Plot plan showing the actual dimensions of the lot to be built on and the size and location of the building to be built. (b) The location, grade, and dimensions of any access drives. (c) The location and type of water and sewage facilities (d) plan and dimensions of each floor layout of the building and accessory to be erected or altered, and a complete material specification list. (e) A *COMPLETE* and *DETAILED* drawing of foundation specifications and **cross section** view of *all* framing members. All framing members must be spec-ed out and labeled.

10. This application must include the appropriate fee and filed with the Town Clerk. *NOTE:* All property owners/contractors performing work without a Building Permit will be subject to a violation fee equal to the permit fee and suspension of the project until fees are met. (adopted by the Town Board Dec. 13, 1999)

11. Effective Nov. 29, 2004, all new structures built on vacant land must obtain a 911 Emergency location number after the structure is built. All Certificate of Occupancy (CO) or Certificate of Compliance (CC) applications, for any new structure must include the 911 location number before a CO or CC can be issued. Old Fire Numbers (ie: VM291) are no longer valid. To obtain a 911 number for new structures on vacant land, or if you do not know your current 911 number for an existing structure, you must contact Delaware Cty. Emergency Services at (607) 746-9600.

* Work may not be commenced before the issuance of a Building Permit. A plan of the approved Building Permit must be kept at the worksite and available for inspection throughout the progress of the work being performed.

PLEASE NOTE THE FOLLOWING:

***The Building Permit is valid for one year from date of issue. If work is not completed within one year, 2 years of renewals can be applied for with fee. On third year, a new permit must be purchased and will continue from year to year until such time that a Certificate of Occupancy or Compliance is applied for.**

***Upon completion of all work that requires a Certificate of Occupancy, an application must be filed and appropriate fee paid. It must include an approved septic report from NYCDEP and an approved electrical inspection report when applicable. The Building Inspector must be contacted to make a final inspection of the completed work in order to close out your file.**

*** Upon Completion of work that requires a Certificate of Compliance, an application must be filed and appropriate fee paid. The Building Inspector must be contacted to make a final inspection of the completed work in order to close out your file.**

Permits must be kept current. Expired permits are subject to fines.

Effective January 1, 2005

SPECIFICATIONS FOR DRIVEWAY CULVERT PIPES

Where driveway pipes are necessary:

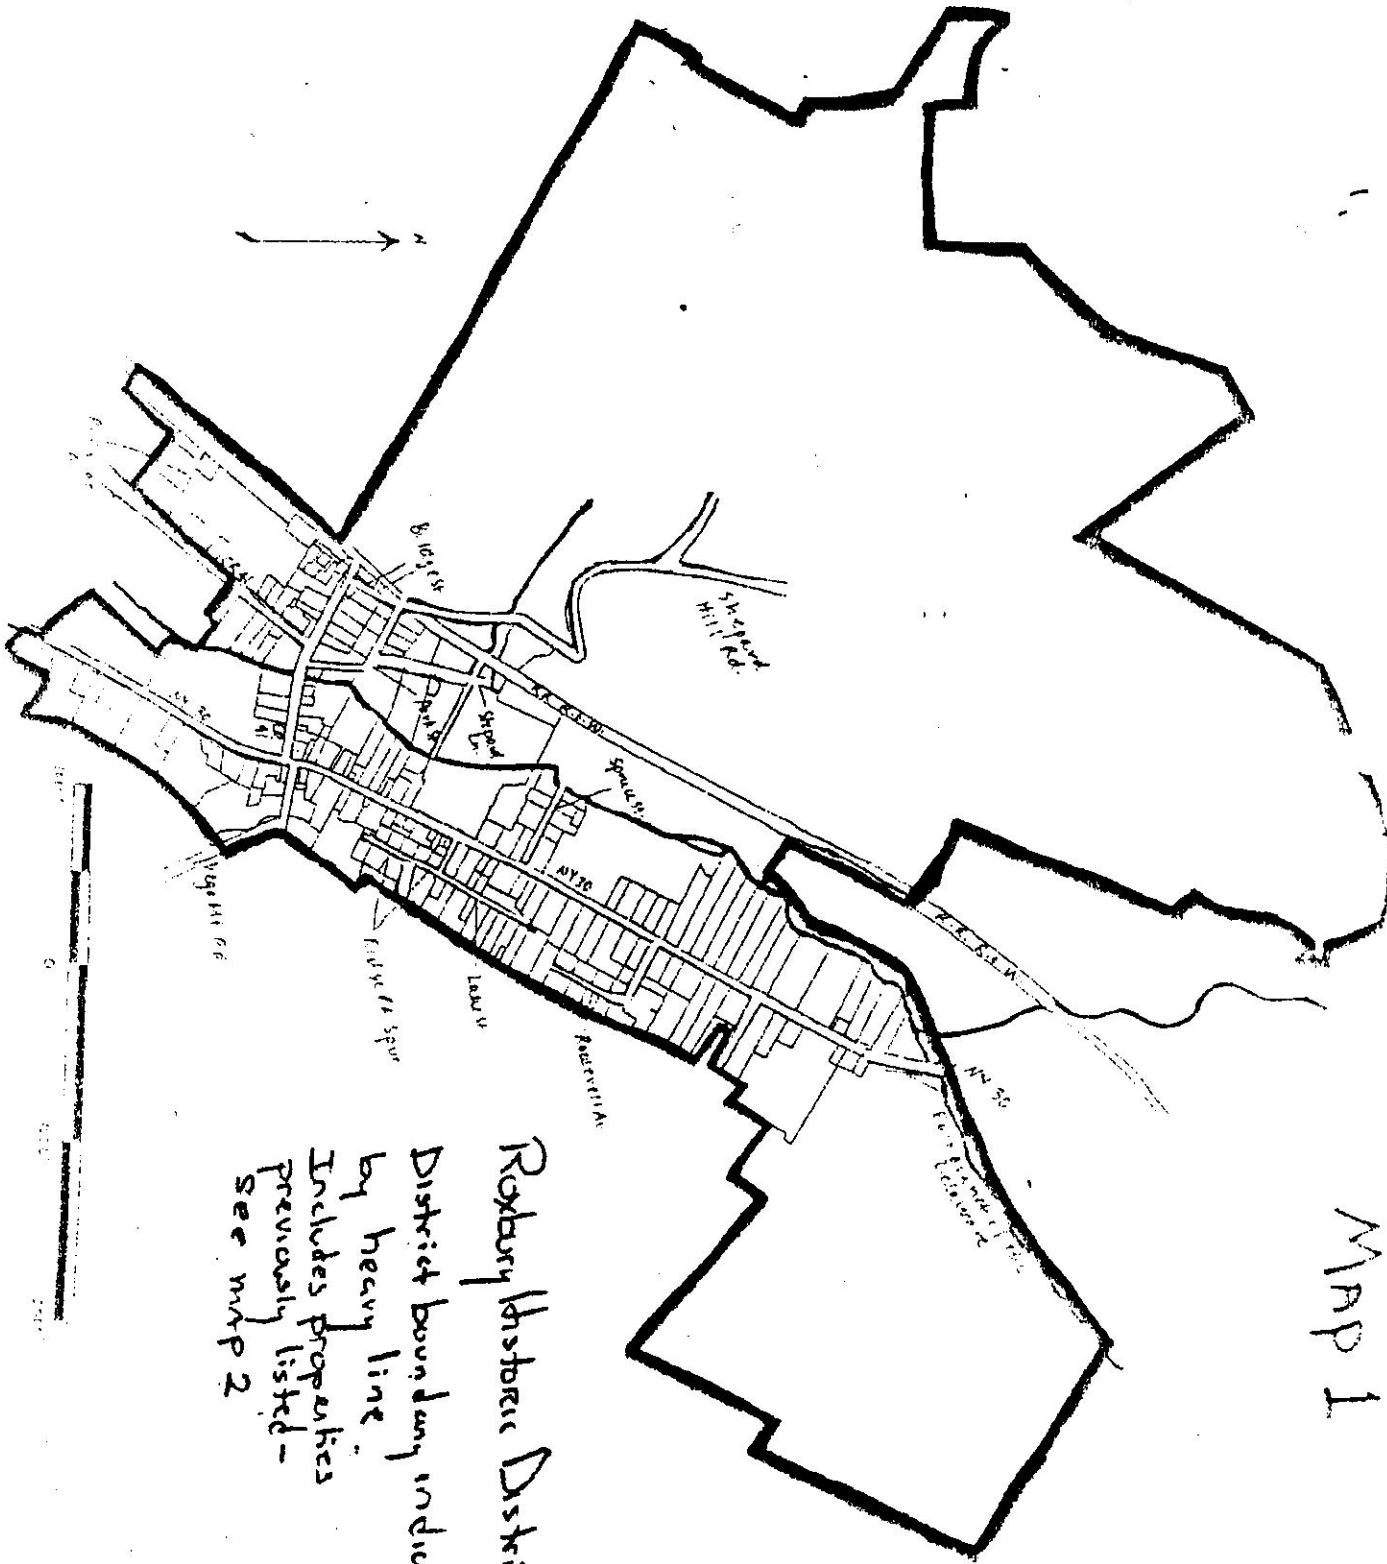

- ◆ Move ditch line back to 19 feet from the centerline of roadway
- ◆ The alignment should be blended 50 feet ahead and 60 feet beyond centerline of drive
- ◆ A minimum of 30 feet of 18 inch pipe is required
- ◆ There shall be laid up rocks or concrete heading to prevent washing out or flattening of the ends
- ◆ There shall be markers to locate each end of the pipes
- ◆ All driveways shall have a landing area of at least 20 feet in length as measured from the edge of the shoulder, with a maximum slope of 3%

The Town of Roxbury Highway Superintendent has the authority to remove any pipe that has not been approved by him, and where there is no form signed by him and the landowner.
